FEEDING INSTRUCTIONS

Veemin Sweet Hi-Mag is designed to be self-fed to grazing cattle when grass tetany is a concern. Provide one covered mineral feeder for every 20-25 animals. Mineral feeders should be located near a clean, fresh source of water. Mineral intake will vary depending upon the mineral status of the livestock. Cattle should consume 2-4 oz per head daily. Feed continuously while on lush pastures. Provide a source of clean, fresh water at all times.

CAUTION: Use as directed. Contains added selenium. Intake of supplemental selenium should not exceed 3 milligrams per head daily.

WARNING: This product contains elevated copper levels. Do not feed to sheep, or any species with a low tolerance to supplemental copper, as copper toxicity may result.

This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feed. Free from restricted ruminant protein products per Title 21, CFR 589.2000.
