FEEDING INSTRUCTIONS

Veemin Sheep Mineral is designed to be self-fed to grazing sheep. Provide one covered mineral feeders for every 20 to 25 animals. Mineral feeders should be located near a clean, fresh source of water. Mineral intake will vary depending upon the mineral status of the livestock. Sheep should consume 0.25-0.5 oz per head daily. Provide a source of clean, fresh water at all times.

CAUTION: Use as directed. Contains added selenium. Intake of supplemental selenium should not exceed 0.7 milligrams per head daily.

This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feed. Free from restricted ruminant protein products per Title 21, CFR 589.2000.
